

TO LOCATE A CAREFIRST PROVIDER:

When you log into Carefirst.com go through the process of “Find a Provider”/”Search a Medical Provider” until you get to the screen to search by plan

Click on the button “TPA-CareFirst Administrators” and then “Continue” or you can enter a provider name on the lower part of this screen.

If you did not enter a provider name, on the next screen select “Carefirst Regional” (previously known as Preferred Provider Network). There will be additional selections after that based on specialty and provider area.
