

Sheppard Pratt School

Use of Public Transportation and/or Ride-Sharing Services

In addition to the use of local school system funded transportation, students may be transported to school via guardian or designee drop off, public transportation, and/or ride-sharing service.

Students under the age of 18 years old will not be dismissed from school to a ride-share service unless accompanied by a guardian or designee.

The use of public transportation for afternoon dismissal is restricted to students 13 years of age or older and requires a signed parent/guardian permission slip. Permission may also be granted through an IEP team meeting decision.
