

Sheppard Pratt

**Supplement to Sheppard Pratt Notice of Privacy Practices  
Effective 10-15-2022**

**This Supplement is applicable to those with records  
in the Evolv electronic health record system utilized by  
Sheppard Pratt Community Services programs.**

Beginning on or about December 15, 2022, Sheppard Pratt's Community Services programs using the Evolv electronic health record have chosen to participate in Carequality, a health information exchange. As permitted by law, your health information will be shared with this exchange in order to provide faster access, better coordination of care and assist providers and public health officials in making more informed decisions. Sheppard Pratt will not only be sharing your health information but may also obtain information provided by other providers. You may "opt-out" and disable all access to your health information available through Carequality by telling your Sheppard Pratt care provider that you do not wish to participate. Please note that public health reporting, in accordance with the law, as well as Controlled Dangerous Substances Information, as part of the Maryland Prescription Drug Monitoring Program (PDMP), will still be available to providers. Please note that Carequality is not the same as Chesapeake Regional Information System for our Patients, Inc. (CRISP). Opting out of one of these Health Information Exchanges does not automatically opt out of the other. These HIEs operate independently.
